

Assumption:

1.

Assume that an artist can have no phone or one phone number, and a customer can have no business or one business.

2.

Assume that if an artwork_style is already parent style, then it doesn't have a parent style.

3.

"MAU maintain for each artist the number of works which MAU currently hold in stock for that artist."

Assume that each artist has at least one artwork in MAU. Thus, the relationship from ARTIST to ARTWORK_IN_MAU has cardinality (1, N)

4.

Assume that customers only purchase artworks during the exhibitions held by galleries.

5.

Assume that an artwork can receive no request or many requests from galleries, and a gallery can make no request or many requests to artworks.

6.

Assume that a gallery can hold no exhibition or many exhibitions.

7.

Assume that a customer can make no purchase or many purchases, thus the gallery can earn no commission or many commissions.
