FIT5136_Team_48_Task_1

Feature 1: User Registration

User Story:

As a user, I want to create an account using email and password so that I could use my account to access the features of Conference Management System

Acceptance criteria 1:
User needs to create an account using his/her personal credentials such as username, email and password.

Acceptance criteria 2:
The system should store the credentials of this new user if all details are valid.

Acceptance criteria 3:
The system should display a proper message of successful/unsuccessful completion followed by the next screen.

Feature 2: Conference Management

User Story:

As a chair of a conference, I want to assign the final status to a paper so that I can decide whether the conference accepts or rejects that paper.

Acceptance Criteria1:
The user needs to choose the chair user type before he/she makes a decision on a paper.

Acceptance Criteria 2:
The system checks if this user can choose chair type, then shows all actions that a chair can do.

Acceptance Criteria 3:
The chair needs to enter the paper id before he/she makes a decision.

Acceptance Criteria 4:
The chair needs to decide the final status to be "Accept" or "Reject".

Feature3: Paper Submission

User Story:

As an author, I want to upload papers in specific formats so that I can upload my full paper in these formats without being rejected.

Acceptance Criteria 1:
The system should allow PDF and Word file format to upload.

Acceptance Criteria 2:
If users submit the other formats file, the system will make an error to remind them.

Feature 4: Review Management

User Story:
As a reviewer, I want to choose my expertise areas so that I can be assigned to a paper that fits my research interests.

Acceptance Criteria 1:
When the reviewer goes into the reviewer dashboard, the system will show an option to ask the reviewer to choose his/her expertise area from a list.

Acceptance Criteria 2:
The chair needs to allocate a relevant paper to the reviewers who is suitable judging by his/her expertise areas.

Feature5: Conference Administration

User Story:
As an admin, I want to retrieve users information so that I can check information about all registered users.

Acceptance Criteria 1:
The user's account needs to be qualified as an Admin before he/she chooses this user type.

Acceptance Criteria 2:
The system should allow Admin to retrieve information of all users in the database.
